5 January 1955

Chief, [REDACTED] FOIAb3b1

Chinese Communist Plant Construction Since 1950

1. The list of Chinese Communist plants completed or under construction since 1950, forwarded by [REDACTED] last 25X1A6a November, proved highly interesting to an Agency office concerned with collection of economic information.

2. Additional information as to the nature and magnitude of these projects from broadcasts or published sources would be of great interest to this consumer.

3. This office would appreciate learning the name and address of the publisher, language availability, and other pertinent data concerning the magazine, Problems of Communist China.

4. Please supply the information as requested in paragraph three at your earliest convenience.
